

## *Supporting South Carolina Economic Development*

Santee Cooper was part of teams that successfully attracted Redwood Materials to Camp Hall and DC BLOX to Myrtle Beach's ITAP commerce park and enabled Nucor Steel to expand in Berkeley County and Carolina Food Services to expand its Loris Commerce Park presence, among other developments. In 2022, Santee Cooper and the state's electric cooperatives helped bring more than \$4.9 billion in capital investment and 3,460 jobs to South Carolina.

*Together, we're #PoweringSC.*

*Santee Cooper's environmental efforts are core to our company's vision and beliefs.*

Where the Grainger Generating Station once stood in Horry County, trees and wildlife are flourishing. The land is returning to its natural wetlands, thanks to our environmental efforts.

Starting in 2019, we planted what was known as Lake Busbee and the former ash ponds with native trees to move the process along. We're proud of the progress that's been made, and you can see the fruits of our efforts in a local TV documentary by scanning the code.
