

Celebrate Customer Service Week Oct. 2-6

We're giving a big shoutout to our dedicated Customer Service Representatives, who demonstrate excellent customer service every day. They're a big reason our residential and business customers give us a better-than-96% satisfaction rate!

We also celebrate being a Public Power Utility the first week of October. Our utility is owned by our customers and community. We take pride in bringing value to our customers.

Don't Let Energy Vampires Take a Bite Out of Your Budget

- Computer equipment
- TVs
- Surround sound systems
- Cable or satellite TV boxes
- Household items (toasters, coffee makers, phone chargers, game consoles, etc)

October is National Energy Awareness Month. Don't let "energy vampires" increase your energy usage, and, ultimately, bills. Unplug items that use energy even when you're not using them.
