

New Commercial Rates Effective April 2025

Updated Energy (kWh) Peak Periods:

- Summer (April–October):
3 p.m. to 7 p.m. daily.
- Non-Summer (November–March):
5 a.m. to 9 a.m. daily.

General Service Commercial Rate:

Now includes a three-part structure:

- Customer Charge: A fixed monthly charge for service availability.
- Demand Charge: Based on the highest 30-minute integrated kW demand each month.
- Energy Charge: Based on the total kilowatt hours consumed during the billing period.

Rate Classifications:

- General Service Commercial: For customers with demand less than 50 kW.
- General Service Demand: For customers with demand between 50–300 kW.
- General Service Large: For distribution voltage customers with demand exceeding 300 kW.
- Optional seasonal or Time-of-Use rates are available for all commercial customers.

Love Our Small Business Energy Saver Program

Improve your small business through our Small Business Energy Saver program. You can improve the look of your business and help your bottom line. The program is simple.

Here's what we do:

- Perform a FREE energy assessment.
- Install your new lighting or refrigeration equipment and manage your project.
- Pay a portion of the project cost.

The Eligible Upgrades are:

- Interior Lighting: Office, warehouse, showroom, retail shop, etc.
- Exterior Lighting: Parking lot, and perimeter lighting
- Refrigeration: Walk-in coolers and freezers with energy-efficient motors, LED case lighting, and anti-sweat cooler door controls

Qualifications Apply.
