PROJECT OVERVIEW

Santee Cooper is committed to delivering reliable power to all of our customers across the state through the investment in power projects that strengthen the grid and help maintain excellent reliability. Our projects also provide power to commercial and industrial developments aimed at improving local economies and job creation.

To allow for future growth in Dorchester County, two (2) new transmission lines approximately 3-4 miles in length will be constructed east of St. George, SC. An interactive map and other information can be found on the project webpage. The map shows preliminary route options being considered. The final selected route may be one of those depicted or a combination of the routes.

PROPOSED PROJECT TIMELINE

- Project Kickoff: Spring 2024
- Siting Study: Spring 2024
- Open House and Stakeholder Survey: Summer 2024
- Selection of Final Transmission Route: Fall 2024
- Landowner Meetings: Winter 2024 to Fall 2025
- Vegetation Management: Spring 2026
- Construction Start Date: Spring 2026
- Completion Date: Winter 2026

Santee Cooper is committed to being the ultimate source of electricity for local communities by providing low-cost, reliable, and environmentally responsible services.

WHAT IF I CANNOT ATTEND THE PUBLIC MEETING?

The materials available at the informational session have been uploaded to the webpage. If you have additional comments or concerns, please do not hesitate to reach out so we can better address.

WHY NOT CONSTRUCT UNDERGROUND LINES?

There are a few reasons why underground lines are not being considered for this project. Underground lines can be more intrusive to the environment, depending on where they're placed, and it's more intrusive to the environment when they need to be repaired. Underground lines typically cost more than the amount overhead lines cost, and they would take a much longer period of time to repair when there is an issue.

HOW CAN I CONTACT YOU ABOUT THE PROJECT?

To contact Santee Cooper about this project, please email the project hotline or call our automated voice messaging system. A staff member will respond to you within two business days.
